The donation center will be operated in phases to effectively meet the needs of evacuees.

Phase 1 will run for the first three weeks, from June 3 to June 27, 2025, and will focus on collecting immediate needs as listed. During this initial phase, we are accepting new items only to ensure safety and appropriateness for evacuees.

Phase 2:

The second phase of the donation center will begin after June 27, 2025. During this phase, we will identify additional needs and specify which items are required. At that time, we will communicate which donations are needed and when to drop them off.
